1. Your memo of 26 March is very much to the point.

2. I see no basis whatsoever for your conclusion in paragraph 3 that [REDACTED] apparently have treated this matter lightly. It is obvious that [REDACTED] has not maintained security, but I see no more reason to bracket [REDACTED] in this indictment than to bracket [REDACTED] or Hadden or [REDACTED]

3. I have talked to [REDACTED] about this and he states that it is difficult to believe because a similar accusation was made over a year ago and he cautioned [REDACTED] at that time. [REDACTED] then denied that he ever had disclosed any such information.

4. I would like to run this down further and would appreciate having the name of the neighbor.
